DETAILED ACTION

Reissue Application

1. The present reissue application has been filed to correct a defect therein which makes the patent partially inoperative or invalid by reason of the patentee claiming more than he had a right to claim. See the newly cited prior art which discloses compounds wherein $M = H$. To overcome these references, claim 1 has now been amended to exclude H from the M definition and claims 2, 5, 8, 11, 14, 18, 21, 24, 27 and 30 canceled.

Specification

2. It is requested that the status paragraph on page 1 of the specification be updated by adding (with brackets and underlining) the present status as a reissue application.

Information Disclosure Statement

3. It is further requested that an additional IDS be presented containing all the references of record in the original patent.

Claim Objections

4. Claims 2, 5, 8, 11, 14, 18, 21, 24, 27 and 30 are objected to as not conforming to reissue format which requires canceled claims to be bracketed. Submission of a new copy of all the claims with the appropriate underlining and brackets is requested.

Ex parte Quayle

5. This application is in condition for allowance except for the above formal matters.
6. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
7. A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
